District School Board of Seminole County
400 E. Lake Mary Blvd.
Sanford, FL 32773-7127

Dear Chairman, School Board Members, and Citizens of Seminole County:

State law requires that all local governments publish, after the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP), and audited in accordance with governmental auditing standards generally accepted in the United States of America. Pursuant to this requirement, we hereby issue the Annual Comprehensive Financial Report (ACFR)ⁱ of the District School Board of Seminole County, Florida (District) for the fiscal year ended June 30, 2021.

The accompanying report includes all District funds, The Seminole School Board Leasing Corporation, Inc. (Leasing Corporation), The Foundation for Seminole County Public Schools, Inc. (Foundation), and the District's five charter schools: Choices in Learning, Inc., Galileo School for Gifted Learning, Galileo School for Gifted Learning - Skyway, United Cerebral Palsy (UCP) Seminole Charter School, and Seminole Science Charter School (Charter Schools). The Leasing Corporation was formed by the School Board to be the lessor in connection with financing the acquisition and/or construction of certain educational facilities and is considered to be a blended component unit. The Foundation is a not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to raise funds; receive, hold, invest, and administer property; and to make expenditures for the benefit of the District. The Charter Schools are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not-For-Profit Corporation Act, and Section 1002.33, Florida Statutes. The Foundation and the Charter Schools are included in aggregate as discretely presented component units.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, District management has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient, reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from

material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The independent auditing firm, MSL CPAs & Advisors, has audited the District's financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. MSL CPAs & Advisors concluded that there was a reasonable basis for rendering an unmodified opinion that the District's basic financial statements for the fiscal year ended June 30, 2021, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the United States Office of Management and Budget Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on the administration of federal awards. Information related to this single audit, including the schedule of expenditures of federal awards, findings and questioned costs, summary of prior audit findings, and the independent auditor's reports on the system of internal control and on compliance with applicable requirements, are included in the single audit section.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report.

Profile of the District

The District and its governing board were created pursuant to Article IX, Section 4, of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by District school officials in accordance with Chapter 1001, Florida Statutes. The Board consists of five elected officials responsible for the adoption of policies, which govern the operation of District public schools. The appointed Superintendent of Schools (Superintendent) is the executive officer of the Board and is responsible for the administration and management of the schools within the applicable parameters of Florida Statutes, State Board of Education (SBE) rules, and School Board policies. The Superintendent is also specifically delegated the responsibility of maintaining a uniform system of records and accounts in the District by SBE Rule 6A-1.001, Florida Administrative Code. Walt Griffin, Ed.D., served as the Superintendent of Schools throughout fiscal year 2020-21 and retired as of June 30, 2021 after nine years in that role. Serita D. Beamon's appointment as Superintendent of Schools began on July 1, 2021.

The geographic boundaries of the District are those of Seminole County. The District is the 12th largest school district in the State and is 60th nationally. During the 2020-21 fiscal year, the District operated 65 K-12 schools, including 37 elementary schools, 12 middle schools, 9 high schools, 6 specialty schools, and Seminole County Virtual School. In addition, the District sponsors 5 charter schools that are component units of the District. In the 2020-21 fiscal year, the District provided general, special, vocational, and other educational programs to 64,215 unweighted full-time equivalent students. The projected enrollment for the 2021-22 fiscal year is 67,210 unweighted full-time equivalent students. Florida Inventory of School Houses (FISH) has the average age of the District's schools at 29 years old.

The District receives the majority of its operating funds through a State funding formula that is intended to equalize funding received from the State and local property tax between districts within the State. Charter schools operating through a contract with the District are provided with their proportionate share of these funds based upon the number of full-time equivalent students enrolled at the charter school. Recent reports from the Florida Department of Education (FLDOE) indicate that the District has among the lowest administrative costs statewide and was ranked among the best in the state for energy and transportation efficiency.

Economic Condition and Outlook

Seminole County is part of the Orlando Metropolitan Area along with Orange, Osceola, and Lake Counties. Based on the 2020 U.S. Census, Metro Orlando currently has a population of approximately 2.7 million people. The Orlando Economic Partnership promotes Seminole County as a hotbed for high tech and other industry growth directly on the “I-4 corridor” (an area that roughly runs from St. Petersburg and Tampa through Lakeland, Orlando, Lake Mary, Sanford, and ends in Daytona Beach). Seminole County is also part of the Orlando-Space Coast Region, which “supports cutting-edge industries like Aerospace & Defense, Advanced Manufacturing and Life Sciences & Health. Entrepreneurs and global players call the Orlando-Space Coast region home for its high-quality transportation infrastructure, talented workforce and livability,” according to Enterprise Florida.

The U.S. Census estimates the population of Seminole County to be 470,856 as of April 1, 2020, an increase of 48,138 (11.4 percent) since April 1, 2010. By most economic and demographic data measures Seminole compares favorably to the State and the nation:

Economic and Demographic Data	Measurement			
	Period	Seminole	Florida	U.S.
Median Household Income	2015-2019	\$ 66,768	\$ 55,660	\$ 62,843

The Orlando Economic Partnership identifies Seminole County as home to a wide variety of dynamic corporations and headquarters such as American Automobile Association (AAA), Mitsubishi Power Americas, Scholastic Book Fairs, Verizon, and Charter Communications, as

well as the emergence of many high-tech companies, including Finastra, Deloitte Consulting's U.S. Delivery Center, Fiserv, and Faro Technologies. Ongoing expansion at the Orlando Sanford International Airport (SFB), coupled with the state's largest foreign trade zone designation, has helped SFB become the third most active international airport in Florida and the 12th most active in the United States. Seminole County has prepared for growth with everything from a new expressway to pre-approved development sites, specialized job training and infrastructure incentives. The county's public-school system is rated among the highest in the state, and the median household effective buying income is the highest in the region.

The continued enhancement of the local economy is mutually beneficial to the District and the County, and an excellent public education system is a significant factor in attracting new business and industry to the County. The District remains Seminole County's largest employer, with 7,505 full-time equivalent employees during the fiscal year, including 4,714 instructional personnel.

Impacts of Coronavirus Pandemic

The District continued to feel the effects of novel coronavirus (COVID-19) pandemic during the 2020-21 fiscal year. Fiscal uncertainty has led to reductions to the District's operating budget and increased operating costs associated with preventative measures required to minimize the potential for COVID-19 exposure to students, faculty, and staff. Federal, state, and local assistance to school districts has, and will continue to, offset some of these costs. However, new strains of the virus, such as the Delta variant, introduce new uncertainties, making economic prognosis uncertain. The District continues to proactively monitor the situation and remains committed to delivering high-quality K-12 instruction to meet the needs of Seminole County students.

Long-Term Financial Planning

The District follows procedures required by Florida Statutes and the SBE rules in establishing and adopting annual budgets for each of the governmental fund types. Budgets are prepared using the same modified accrual basis as is used to account for governmental funds. Appropriations are controlled at the object level (e.g., salaries, benefits, and purchased services) within each function activity (e.g., instruction, student personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report. During the initial planning for the budget, the District annually budgets an operating fund balance of at least 4 percent of its recurring expenditure budget to ensure compliance with Board Policy 6210. On June 30, 2021, unassigned fund balance in the General Fund totaled \$63,830,179 or 12.5 percent of total General Fund expenditures. This exceeds the District policy requirement.

On March 11, 2014, the District entered into an agreement with the Board of County Commissioners of Seminole County to share a proposed 1 percent local government infrastructure sales surtax as allowed under Section 212.055(2), Florida Statutes. The agreement provides the District with 25 percent of the proposed sales surtax subject to a countywide referendum election. This referendum was approved during the May 20, 2014, special election. The District is estimated to receive \$159 million over a 10-year period from the sales surtax interlocal agreement which will expire in 2024.

Capital Outlay Program

The Florida Legislature reduced the millage rate that school districts can levy for capital projects by 25 percent, from 2 mills to 1.5 mills, over two fiscal years, ending June 30, 2009 and 2010. The allowable millage rate has remained at 1.5 mills since. Property tax revenues for capital projects totaled \$59.4 million in fiscal year 2020-21, an increase of \$3.4 million, or 6 percent, over fiscal year 2019-20 revenues.

Relevant Financial Policies

The District has developed financial policies to ensure that the District meets or exceeds the requirements of GAAP, Federal agency reporting requirements, Florida Statutes, and State and Local reporting requirements. The most significant of those policies are described further in the Notes to Financial Statements, which immediately follow the Basic Financial Statements, to provide readers with context for understanding the financial information presented in this ACFR.

Accomplishments

The District is committed to student achievement and college and career readiness while striving to lead and innovate, for example:

- The District is annually ranked above the State and national averages for graduation rate and is one of the highest in the State and Central Florida area. The District's fiscal year 2019-20 graduation rate was 94.5 percent, or 4.5 percentage points above the State Average of 90 percent.
- The District's 2020 graduating seniors earned more than \$52 million in scholarships and earned more than 3,650 industry certifications.
- Schools throughout Florida are required to participate in an accountability program that awards school grades based on student performance and growth on the required statewide assessments. The District has consistently maintained superior educational programs for its students as indicated by perennial recognition as an "A" rated by the FLDOE.
- More than 46 percent of the District's teachers have earned master's degrees or higher, and 98 percent of teachers are designated as "Highly Qualified."
- During the 2020-21 fiscal year, the District continued to hold its number 1 ranking in the state in Science, Technology, Engineering, and Math (STEM) and was one of the top districts in the state in calculus and physics enrollment.
- The District has been named the first Full Immersion Computer Science Lighthouse District in Florida by Code to the Future.

Awards and Acknowledgements

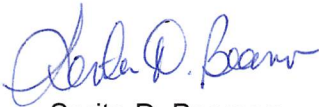

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting and the Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its ACFR for the fiscal year ended June 30, 2020. This was the 20th year the District has received these prestigious awards. In order to be awarded the Certificate of Achievement for Excellence in Financial Reporting and the Certificate of Excellence in Financial

Reporting, the District must publish an easily readable and efficiently organized ACFR. This ACFR must satisfy both generally accepted accounting principles and applicable legal requirements. The Certificate of Achievement and Certificate of Excellence are valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement and the Certificate of Excellence program requirements, and we are submitting it to the GFOA and ASBO to determine its eligibility for another certificate. This ACFR also satisfies both GAAP and applicable legal requirements.

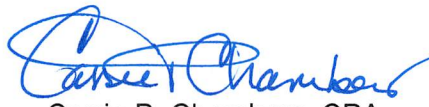

The preparation and completion of this ACFR on a timely basis was made possible by the dedicated service of the entire staff of the Finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation and completion of this Report.

In closing, we would like to thank the members of the School Board for their leadership and support in planning and conducting the financial operations of the District.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Chairman and Members of
The District School Board
of Seminole County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District School Board of Seminole County, Florida (the "District") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Charter Schools or Foundation for Seminole County Schools, Inc., which comprises 100 percent of the assets, net position, and revenues of the discretely presented component units of the District. Those financial statements were audited by other auditors, whose reports have been furnished to us and, our opinion, insofar as it relates to the amounts included for the discretely presented component units, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT *(Continued)*

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparison for the general fund for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis-of-Matter

Change in Accounting Principle

As discussed in Note 1 to the financial statements, in the year ended June 30, 2021, the District adopted the provisions of Government Accounting Standards Board Statement ("GASBS") Number 84, *Fiduciary Activities*. As a result of the implementation of GASBS 84, the District reported a restatement for the change in accounting principle. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Other Postemployment Benefit Schedules, and Pension Schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The introductory section, combining and individual major and non-major fund financial statements and schedules, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual major and non-major fund financial statements and schedules are the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual major and non-major fund financial statements and schedules are fairly stated, in all material respects, in relation to the financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT
(Concluded)

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the District School Board of Seminole County, Florida (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021. The information contained in Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

FINANCIAL HIGHLIGHTS

Perhaps the most significant and pervasive event affecting the District during fiscal year 2020-21 was the continuation of the novel Coronavirus (COVID-19) pandemic. Normal District operations were halted in mid-March through the end of the fiscal year 2019-20 amid a series of Federal and State emergency orders and the continued climb of COVID-19 cases in Florida. The District resumed instructional operations for school year 2020-21, albeit using a mix of brick-and-mortar classroom and online instruction. The local economic impacts of the pandemic eased somewhat during fiscal year 2020-21 as an increasing proportion of the population was vaccinated, mask mandates were lifted, and many local businesses resumed operations.

The District continued to see increased costs in areas relating to cleaning, sanitizing, and maintaining facilities to help mitigate the spread of COVID-19 as face-to-face classes resumed. Cost increases were seen in other areas, such as enhancements to network infrastructure, deployment of additional technology, and increased cybersecurity to support distance learning for students. Federal, state, and county funding sources have helped defray much of the costs associated with pandemic response, most notably the Coronavirus Aid, Relief, and Economic Security (CARES) Act; the Elementary and Secondary School Emergency Relief (ESSER I) Fund; and the Elementary and Secondary School Emergency Relief II (ESSER II) Fund, which are presented in a separate Special Revenue fund, the Special Revenue – Federal Education Stabilization Fund, in the financial statements; but the longer-term economic impact on Federal, State, and Local funding for school districts remains unquantifiable.

Despite the pandemic, the District's ending net position at June 30, 2021, improved over the prior year. Nonetheless, a resurgence in COVID-19 cases due to variant strains brings additional uncertainties for fiscal year 2021-22. (see also the "Other Significant Matters" section of this MD&A). Management is proactively monitoring the pandemic situation to ensure that the District is poised to respond as necessary to support the educational needs of Seminole County.

Key financial highlights fiscal year 2020-21 are as follows:

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2021, by \$543,323,577 (net position). Of this amount, \$194,536,203 represents a deficit unrestricted net position. This is the seventh consecutive year the District reported a deficit unrestricted net position, which is attributable to the implementation of Government Accounting Standards Board (GASB) standards for liabilities recognized for pensions and other postemployment benefits. See Note I.G.10., Note IV.E., and Note IV.F. to the financial statements for more information.
- The District's total net position increased during the current fiscal year by \$28,397,552, or 5.6 percent (excluding prior period adjustments of \$7,095,087).
- General revenues totaled \$591,132,289, or 80.6 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions totaled \$142,006,472, or 19.4 percent of all revenues.

- At June 30, 2021, the fund balance for the General Fund totaled \$93,617,557. The amount represents a \$20,929,998 increase during the current fiscal year. At June 30, 2021, the unassigned fund balance for the General Fund totaled \$63,830,179, representing a \$22,813,088 increase during the current fiscal year. The total of the General Fund assigned and unassigned fund balances were \$77,114,185, or approximately 15.0 percent of General Fund expenditures.
- At June 30, 2021, the District had unspent Certificates of Participation proceeds that totaled \$170,267 which included interest earnings.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities, which are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting.

The statement of net position provides information about the District's financial position, its assets, liabilities, deferred inflows of resources, and deferred outflows of resources using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equals net position, which is a measure of the District's financial health. The statement of activities presents information about the change in the District's net position and the results of operations for the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in the following categories:

- Governmental activities – This represents most of the District's services, including its educational programs: basic, vocational, and exceptional education. Support functions, such as transportation, food service, and administration, are also included. Local property taxes and the State's education finance program provide most of the resources that support those activities.
- Component units – The District presents seven separate legal entities in this report. The District's five charter schools (Choices in Learning, Inc., Galileo School for Gifted Learning, Galileo School for Gifted Learning-Skyway Campus, UCP Seminole Charter School, and Seminole Science Charter School), and The Foundation for Seminole County Public Schools, Inc., are legally separate organizations and component units that are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Financial information for these component units is reported separately from the financial information presented for the primary government. The Seminole School Board Leasing Corporation, Inc. (Leasing Corporation), although also a legally separate entity, was formed to facilitate financing for the acquisition of facilities and equipment for the District. Due to the substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation is included as an integral part of the primary government.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This contrasts with the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of the broad categories discussed below.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, comparing the information presented for governmental funds with similar information presented in the government-wide financial statements may enhance readers' understanding of the long-term impact of the government's near-term financing decisions. Reconciliations between the government-wide financial statements and the governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances are provided to facilitate this comparison.

The governmental funds balance sheet and the statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Debt Service - Certificates of Participation Fund, Capital Projects - Other Capital Improvement Funds, Capital Projects - §1011.71(2) Local Capital Improvement Tax Fund, Special Revenue – Contract Programs Fund, and Special Revenue – Federal Education Stabilization Fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each nonmajor governmental fund is provided in the form of combining statements in this report immediately following the notes to the financial statements and the required supplementary information.

The District annually adopts a budget for its governmental funds. Budgetary comparison statements are provided as part of the basic financial statements for the General Fund and the Special Revenue – Contract Programs Fund, and the Special Revenue – Federal Education Stabilization Fund to demonstrate compliance with the budget at the functional level. Budgetary comparison schedules for all the remaining funds immediately follow the notes to the financial statements and the required supplementary information.

Proprietary Funds

Proprietary funds may be established to account for activities in which a fee is charged for services. Internal service funds are proprietary funds used to report activities that provide goods and services to support the District's other programs and functions through user charges. The District uses internal service funds to account for its self-insurance programs, print shop, and internal leasing program. Since these services predominantly benefit governmental rather than business-type functions, the internal service funds have been included within the governmental activities in the government-wide financial statements. Individual fund data for each of these internal service funds is provided in the form of combining statements in this report, immediately following the notes to the financial statements and the required supplementary information.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The District's internal service funds are combined into a single, aggregated column in the proprietary fund financial statements.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as employee benefit funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's net pension liability and its funding progress for other postemployment benefits.

Combining and Individual Fund Statements and Schedules

The combining statements and additional budgetary comparison schedules referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the Required Supplementary Information Other than MD&A.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position over time may serve as a useful indicator of a government's financial condition. The following is a summary of the District's net position as of June 30, 2021, compared to net position as of June 30, 2020:

District School Board of Seminole County, Florida's Net Position

Unrestricted (deficit)	(187,099)	(194,536)
Total net position	<u>\$ 507,831</u>	<u>\$ 543,324</u>

The largest portion of the District's net position, \$614,154,452, is net investment in capital assets (e.g., land; construction in progress; buildings and fixed equipment; improvements other than buildings; furniture, fixtures, and equipment; motor vehicles; audio-visual materials; and computer software), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the net investment in capital assets is reported net of related debt, the resources used to repay the debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

The restricted portion of the District's net position, \$123,705,328 represents resources that are subject to external restrictions on how they may be used. The unrestricted net position, a deficit amount of \$194,536,203, was partly the result of accruals for compensated absences payable, total other postemployment benefits (OPEB) liability, and net pension liability.

(*) Beginning net position for fiscal year ending June 30, 2021, was restated to reflect (1) the adoption of GASB Statement No. 84, Fiduciary Activities, and (2) the District's proportionate share decrease in net pension liability arising from a prior period adjustment recognized by the Florida Retirement system. (See notes I(A) and II.)

The largest revenue source for the District is from the State of Florida, Florida Education Finance Program (FEFP), which is presented as part of other unrestricted sources in the chart below. FEFP revenue is based on a formula that utilizes student enrollment data and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District’s funding ability based on the local property tax base. FEFP revenue increased by \$7,842,643 due to larger statewide annual appropriations mostly for the new Teacher Salary Increase Allocation that was offset by the elimination of the Best and Brightest program and a reduction to the Funding Compression Allocation.

Property tax revenues increased by a net \$5,893,239, or 2.6 percent versus the prior fiscal year, despite a decrease in total millage rate decreased by 0.199 mills, or 3.2% percent. The increase in property tax revenues was driven by increases in the assessed taxable property values.

The District also receives one-quarter of a Seminole County voter-approved one-cent infrastructure surtax authorized under Section 212.005(2), Florida Statutes. The District receives their allocation of surtax revenues through an interlocal agreement on taxable sales generated in Seminole County from January 1, 2015, to December 31, 2024. For the current year, sales tax revenues totaled \$20,277,988.

Expenses by Function

Instruction expenses represent 58.3 percent of total governmental-wide expenses in the 2020-21 fiscal year. The total proportion of instruction expenses remained steady with an increase in expenses over the previous fiscal year of \$23,512,422, or 6.1 percent, primarily due to an overall increase in starting teacher salary from \$40,000 to \$46,310, instructional pension and other postemployment benefits.

Student personnel services expenses represent 4.6 percent of expenses in the 2020-21 fiscal year. Student personnel services expenses increased by \$1,311,834, or 4.2 percent, from the previous fiscal year, primarily due to increases for salaries and benefits. Outside of instruction and student personnel services, other functions of the District also had various increases and decreases in expenses from the prior fiscal year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Specifically, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance that has not been limited to a particular purpose by an external party or by the District.

The total fund balances of governmental funds increased during the current fiscal year by \$45,436,310, or 27.9 percent from the previous fiscal year. Of this amount, the General Fund increased by \$20,929,998, or 28.8 percent, the Debt Service - Certificates of Participation Fund decreased by \$5,597,605, or by 74.7 percent, the Capital Projects - Other Capital Improvement Funds increased by \$16,137,236, or 35.4 percent, and the Capital Projects - §1011.71(2) Local Capital Improvement Tax

Fund increased by \$3,788,957, or 16.3 percent. The remaining increase of \$10,177,724, or 72.7 percent, was a direct result of changes in the nonmajor funds.

The total governmental fund balance at June 30, 2021, was \$208,460,282, of which \$63,830,179, or 30.6 percent is unassigned and available for spending at the District's discretion. The remainder of the fund balance is nonspendable, restricted, or assigned to indicate that it is: 1) not in spendable form (\$3,791,941), 2) restricted for particular purposes (\$127,554,156), or 3) assigned for particular purposes (\$13,284,006).

Major Governmental Funds

The General Fund is the District's operating fund. At the end of the current fiscal year, unassigned fund balance was \$63,830,179, and the total fund balance was \$93,617,557. As a measure of the General Fund's liquidity, it may be useful to compare the total assigned and unassigned fund balances to General Fund total expenditures. The total assigned and unassigned General Fund balance is approximately 15.0 percent of the total General Fund expenditures, while total General Fund balance represents approximately 18.3 percent of total General Fund expenditures.

The total General Fund balance increased by \$20,929,998 during the current fiscal year. The primary factors impacting the change in fund balance are described below:

Total revenues increased by \$3,409,831, or 0.7 percent for fiscal year 2021. Florida Education Finance Program (FEFP) revenue increased by \$7,842,643 due to larger statewide annual appropriations for education; the FEFP is accounted for entirely in the General Fund. In addition, property tax revenue increased by \$2,523,294. Charges for services income decreased by \$1,910,653 and federal direct and federal through state sources also decreased by \$23,017. The remaining change comprises relatively small decreases in various categories across function.

Total expenditures decreased by \$5,048,006, or decreased by 1 percent, due primarily to a decrease in salaries and benefits expenses of \$5,828,134, an increase in purchased services of \$2,355,473, an increase in energy services of \$1,769,127, a decrease in material and supplies of \$976,472, a decrease in noncapitalized capital outlay of \$3,081,204, and a increase in other expenses of \$916,348. Net transfers out of the General Fund also decreased by \$5,156,902.

The Debt Service - Certificates of Participation Fund had a fund balance total of \$1,896,704 at June 30, 2021. The fund balance decreased in the current fiscal by \$5,597,605 primarily due to interfund transfers made during the fiscal year. These funds are restricted for future debt service payments.

The Capital Projects - Other Capital Improvement Funds includes the following sources: Sales Tax Revenue 3rd Generation, County Impact Fee Revenues, Miscellaneous State Revenue, Local Capital Improvement activities and proceeds of the issuance of certificates of participation. The Capital Projects - Other Capital Improvement Funds reported a total fund balance of \$61,738,907 at June 30, 2021. These funds are restricted for the acquisition, construction, and maintenance of capital assets. The fund balance increased by \$16,137,236, or 35.4 percent, in the 2020-21 fiscal year. This was due to capital projects in process that were not complete at the end of the fiscal year.

The Capital Projects - §1011.71(2) Local Capital Improvement Tax Fund had a total fund balance of \$27,022,928 at June 30, 2021. Of this amount, \$22,065,442 was encumbered for specific projects. The fund balance increased by \$3,788,957, or 16.3 percent, during the fiscal year, primarily due to expenses related to the closeout of projects completed during the year.

The Special Revenue – Contract Programs Fund is used to account for certain Federal Program resources, such as grants, which are typically funded on a cost-reimbursement basis. The fund had total revenues of \$45,943,466 during the fiscal year. Because revenues are not recognized until expenditures are incurred, this fund generally does not accumulate a fund balance. The due from other governments balance of \$4,583,025 at June 30, 2021, represents amounts due from other agencies for outstanding reimbursements due for expenditures incurred during the fiscal year.

The Special Revenue – Federal Education Stabilization Fund is used to account for Federal funding CARES and the Elementary and Secondary School Emergency Relief Funds provided to assist the District in covering additional instructional and operational costs incurred due to the COVID-19 pandemic; which is typically funded on a cost-reimbursement basis. The fund had total revenues of \$16,957,652 during the fiscal year. Because revenues are not recognized until expenditures are incurred, this fund generally does not accumulate a fund balance. The due from other governments balance of \$9,495,923 at June 30, 2021, represents amounts due from other agencies for outstanding reimbursements due for expenditures incurred during the fiscal year.

GENERAL FUND BUDGETARY HIGHLIGHTS

Original Budget Compared to Final Budget

During the 2020-21 fiscal year, the District amended its General Fund budget several times to account for budget increases/decreases in revenue, primarily due to changes in estimated State funding levels. Because of their unpredicted nature, other revenue budget adjustments are made throughout the year when the new revenues are received. Final budgeted revenues in the General Fund were more than original budgeted amount by \$3,088,029, or 0.6 percent. Final appropriations in the General Fund were more than the original budgeted amounts by \$5,869,311, or 1.0 percent.

Final Budget Compared to Actual Results

Actual revenues were approximately \$2.8 million below budgeted revenues. The primary changes are related to a decline in investment income of \$1.0 million, a reduction of state sources of \$1.0 million, a reduction in charges for services of \$0.4 million, and a reduction of other local sources of \$0.4 million.

Actual expenditures are less than final budgeted amounts by approximately \$62.7 million, or 10.9 percent. The primary cause for unspent appropriations is related to schools and other programs carrying forward unspent appropriations that will be used in succeeding years. This accounts for approximately \$27.1 million (\$13.8 million for State required carryover programs, \$8.1 million for other carryover programs, and \$5.2 million in purchase order obligations at year-end). The balance of approximately \$35.6 million is largely due to savings in operations versus budgeted amounts, most notably in salaries and benefits, purchased services and materials and supplies, a portion of which was reimbursed through federal and local COVID relief funding.

The General Fund's actual ending fund balance of \$93,617,557 exceeded the final amended budgeted fund balance by approximately \$51.7 million. The increase in fund balance is primarily attributable to lower than budgeted expenditures offset by decreased revenues, as explained above.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's capital assets for governmental activities as of June 30, 2021, totaled \$744,922,308 (net of accumulated depreciation and amortization). The capital assets include land; construction in progress; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; and computer software. The District's capital assets (net of accumulated depreciation and amortization) for the current fiscal year decreased by \$3,201,099, or 0.4 percent. The change is

attributable to a net increase in buildings and fixed equipment and other improvements of \$17,837,160; net decrease in furniture, fixtures, and equipment of \$679,872; net decrease in motor vehicles of \$277,160; net decrease in software of \$461,467; and net decrease in construction in progress of \$19,619,760.

Major projects in process at the end of the current fiscal year that are included as additions to construction in progress: Lyman High School Buildings 9 & 10 (\$7,518,626), Crooms Academy gym replacement (\$9,690,960), and Casselberry Elementary Renovation (\$7,105,392).

The following is a summary of the District's capital assets as of June 30, 2020 and 2021:

Total bonded debt	\$ 153,174,438	\$ 130,157,297

At June 30, 2021, the District has long-term bonded debt outstanding of \$130,157,297, net of premiums and discounts. During the current fiscal year, principal debt payments, excluding refundings, interest payments, amortization of premiums, or discounts, totaled \$21,164,000.

SBE Capital Outlay bonds are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Proceeds are to be used to refund outstanding SBE Bonds.

In September 2016, the District received ratings on its Certificates of Participation of Aa3 and AA- from Moody's Investor Services and Fitch ratings, respectively, and Fitch affirmed the District's AA- rating on August 6, 2020. Although the District has no outstanding general obligation bonds, the District's general obligation underlying rating was confirmed as Aa2 from Moody's Investor Services.

Debt Refundings

On April 15, 2021, the District issued Certificates of Participation, Series 2021A, in the par amount of \$16,680,000 with an interest rate of 1.59 percent. The proceeds were used to advance refund a portion of the Certificates of Participation Series 2012B outstanding par value of \$15,895,000 and an average interest rate of 3.43 percent. The transaction resulted in defeasance of the refunded principal and the liability for those bonds has been removed from the government-wide statement of net assets. The District completed the advance refunding to reduce its total debt services payments over the next 8 years by 748,000 and to obtain an economic gain of \$700,000.

On April 15, 2021, the District issued Certificates of Participation, Series 2021B, in the par amount of \$12,810,000 with an interest rate of 1.79 percent. The proceeds were used to advance refund a portion of the Certificates of Participation Series 2014A outstanding par value of \$11,135,000 and an average interest rate of 4.77 percent. The transaction resulted in defeasance of the refunded principal and the liability for those bonds has been removed from the government-wide statement of net assets. The District completed the advance refunding to reduce its total debt services payments over the next 10 years by \$644,000 and to obtain an economic gain of \$601,000.

Additional information on the District's debt and refunding transactions can be found in Note IV.I. to the financial statements.

OTHER SIGNIFICANT MATTERS

In developing the 2021-22 fiscal year budget, the District considered many factors, including the following:

- The uncertainty of the longer-term impacts of the COVID-19 pandemic and the costs to the District of the sustained response efforts for the safety of teachers and students returning to the classroom.
- The potential shift of students from physical school locations to virtual or blended learning environments.
- The latest enrollment projections for the District indicate an increase of approximately 2,276.88 unweighted full-time equivalent students during the 2021-22 fiscal year.
- The Legislature decreased the Board's formula funding by \$315.01, or 4.0 percent, per student funding for the 2021-22 fiscal year.
- Employer contributions to the Florida Retirement System increased for regular employees from 10.00 to 10.82 percent of payroll for the 2021-22 fiscal year.
- Housing prices are expected to increase the taxable assessed value for the 2021-22 fiscal year.
- Federal and State funding sources available to defray costs of COVID-19 prevention and response.

Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2021

Net Change in Fund Balances - Total Governmental Funds	\$	38,312,726
Amounts reported for governmental activities on the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is depreciated over their estimated useful lives and reported as depreciation expense.		
Expenditures for capital assets	\$ 32,244,066	
Less: Current year depreciation	<u>(35,703,223)</u>	(3,459,157)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position		
Donations of capital assets	11,803	
Cost basis of capital assets disposed	<u>(20,955)</u>	(9,152)
Certain expenditures for software licenses paid in advance are recorded as expenditures in the period paid in the governmental funds. These expenditures are not recorded as expenditures until the period of benefit in the Statement of Activities.		
		-
Revenues for rebates and reimbursements in the Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds.		
		-
The issuance of long-term debt (e.g., bonds, certificates of participation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.		
Debt issued or incurred:		
Certificates of participation	(29,490,000)	
Plus premium	-	
Bonds payable	-	
Plus premium	-	
Principal repayments:		
Bonds payable	659,000	
Certificates of participation	20,505,000	
Payment to escrow agent for refunding	<u>29,623,687</u>	21,297,687
Some expenses in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Change in long-term compensated absences	1,926,101	
Change in accrued interest payable	16,118	
Amortization of bonds payable premiums	80,142	
Amortization of certificates of participation premiums	1,061,472	
Amortization of certificate of participation discounts	-	
Amortization of deferred charges and gains on refunding, net	(101,696)	
Changes in pension liabilities and related deferred outflows and inflows of resources	(33,059,626)	
Changes in OPEB liabilities and related deferred outflows and inflows of resources	<u>538,619</u>	(29,538,870)
Internal service funds are used by management to account for the cost of self-insurance, print shop and the internal leasing program. The net revenue and transfers in of certain activities of internal service funds are reported with governmental activities.		
		1,794,318
Change in Net Position of Governmental Activities	\$	<u>28,397,552</u>

NOTES TO THE FINANCIAL STATEMENTS

DISTRICT SCHOOL BOARD OF SEMINOLE COUNTY, FLORIDA
Notes to the Financial Statements
June 30, 2021

I. Summary of Significant Accounting Policies

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities are normally supported by taxes, intergovernmental revenues, and other nonexchange transactions. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Seminole County School District's (District) governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation and amortized expenses are allocated to each function or program of the primary government.

B. Reporting Entity

The Seminole County District School Board (Board) has direct responsibility for operation, control, and supervision of the District schools and is considered a primary government for financial reporting. The District is part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE), and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Seminole County.

The concept underlying the definition of the reporting entity is that elected officials are accountable to their constituents for their actions. The accompanying financial statements present the District and its blended and discretely presented component units. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are included within the statements of the primary government. The discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the District.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading. Based on these criteria, the following blended and discretely presented component units are included in the District's reporting entity.

I. Summary of Significant Accounting Policies (continued)

B. Reporting Entity (continued)

Blended Component Unit

A blended component unit is, in substance, part of the District's operations, even though it is a legally separate entity. Thus, a blended component unit is appropriately presented as a part of the District. The Seminole School Board Leasing Corporation, Inc. (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in Note IV.I.1. The governing board of the Leasing Corporation is the same as the District School Board. Financial records for the Leasing Corporation are maintained by the District, and District staff is responsible for the day-to-day operation of the Leasing Corporation. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are blended in the accompanying basic financial statements. The Leasing Corporation does not issue separate financial statements.

Discretely Presented Component Units

The District's other component units' financial data are presented in the component units column in the basic financial statements. Although the District is financially accountable for them, they are presented in a separate column to emphasize that they are legally separate from the District.

The Foundation for Seminole County Public Schools, Inc. (Foundation), is a not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to raise funds; receive, hold, invest, and administer property; and to make expenditures for the benefit of the District. The District authorized and approved the Foundation per Section 1001.453, Florida Statutes; however, the Foundation has its own Board and operates independently of the District. Because of the nature and significance of its relationship with the District, the Foundation is considered a discretely presented component unit.

The District's charter schools, Choices in Learning, Inc., Galileo School for Gifted Learning, Galileo School for Gifted Learning – Skyway, UCP Seminole Charter School, and Seminole Science Charter School (charter schools) are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not-For-Profit Corporation Act, and Section 1002.33, Florida Statutes. The charter schools operate under a charter approved by the District. The charter schools are component units of the District because the District established the charter schools by approval of the charter, which is tantamount to the initial appointment of the charter schools, and there is the potential for the charter schools to impose specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the charter schools are public schools, and the District is responsible for the operation, control, and supervision of public schools within the District.

The financial data reported on the District's financial statements was derived from the Foundation's and charter schools' unaudited financial statements for the fiscal year ended June 30, 2021. The financial statements are filed in the District's administrative office at 400

B. Reporting Entity (continued)

East Lake Mary Boulevard, Sanford, Florida. None of the component units are considered a major component unit in relation to the District. All financial statement notes for the Foundation and the charter schools are omitted from this report since their separate financial statements are available. The notes to the Foundation's and charter schools' statements should be used as an integral part to interpret the financial statements of these component units.

C. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund balances and activities have been eliminated from the government-wide financial statements, except for transfers between governmental activities.

D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, reconciliations are presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources not required to be accounted for in another fund and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

The *Debt Service - Certificates of Participation Fund* is a debt service fund that accounts for the accumulation of resources for, and the payment of, debt principal, interest, and related costs on the long-term certificates of participation.

The *Capital Projects - Other Capital Improvement Funds* is funded by various sources other than the local capital improvement tax levy. Funding sources include revenue generated by the one-quarter of one-cent intergovernmental local sales tax, as approved by the voters pursuant to Section 212.055(2), Florida Statutes; impact fees revenues generated from the sale of new home construction; new debt issues used to build and renovate existing infrastructure, and other miscellaneous capital improvement revenue.

Notes to the Financial Statements
June 30, 2021

I. Summary of Significant Accounting Policies (continued)

D. Basis of Presentation - Fund Financial Statements (continued)

The *Capital Projects - §1011.71(2) Local Capital Improvement Tax Fund* is a capital outlay fund to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, new and replacement equipment, motor vehicle purchases, and debt service payments on Certificates of Participation.

The *Special Revenue Funds - Contract Programs Fund* is a special revenue fund used to account for certain Federal grant program resources and school internal funds, which are used to administer moneys collected at schools in connection with school, student athletic, class, and club activities.

The *Special Revenue Funds – Federal Education Stabilization Fund* is a special revenue fund used to account for Federal funding CARES and the Elementary and Secondary School Emergency Relief Funds provided to assist the District in covering additional instructional and operational costs incurred due to the COVID-19 pandemic.

Additionally, the District reports the following proprietary and fiduciary fund types:

Internal Service Funds account for printing services, health self-insurance, risk management services (including claims for workers' compensation, general liability, and property damage), and inter-District vehicle leasing on a cost-reimbursement basis. The District maintained four internal service funds during the 2020-21 fiscal year.

Custodial Funds account for assets held by the District in a trustee capacity or as an agent for individuals and private organizations. The District has one agency fund, the *Employee Benefits Program Fund*.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding between funds at fiscal year-end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

I. Summary of Significant Accounting Policies (continued)

E. Measurement Focus and Basis of Accounting

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured, such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements. The applicable measurement focus and basis of accounting differs between the government-wide and the governmental fund financial statements.

Government-wide

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental Funds

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. State revenues, property taxes, sales taxes, impact fees, Medicaid revenues, charges for services, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. All other revenue items are considered measurable and available only when cash is received by the District.

Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, pensions, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of long-term debt are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Proprietary and Fiduciary Funds

The proprietary funds and agency funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

Notes to the Financial Statements

I. Summary of Significant Accounting Policies (continued)

E. Measurement Focus and Basis of Accounting (continued)

Discretely Presented Component Units

The UCP Seminole Charter School is accounted for under the not-for-profit basis of accounting and uses the *accrual basis of accounting* (revenues are recognized when earned and expenses are recognized when incurred) in accordance with the pronouncements issued by the Financial Accounting Standards Board (FASB).

The Foundation, Choices in Learning, Inc., Galileo School for Gifted Learning, and Seminole Science Charter School are accounted for as governmental organizations and follow the same accounting model as the District's in accordance with the pronouncements issued by the GASB.

F. Budgetary Information

Budgetary Basis of Accounting

The Board follows procedures established by State Statutes and SBE rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each functional activity (e.g., instruction, student personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report. This object level is the legal level of budgetary control.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored in the subsequent period.

I. Summary of Significant Accounting Policies (continued)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance up to specified limits or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Section 280.03(3)(f), Florida Statutes. For the internal service funds, cash and cash equivalents include demand deposits and amounts placed with the State Board of Administration (SBA) in Florida PRIME.

2. Investments

Investments consist of amounts placed in the State Board of Administration (SBA) debt service accounts for investment of debt service funds, amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes, and amounts invested locally. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in the SBA debt service accounts are administered by the SBE to provide for debt service payments on bonded debt issued by the SBE for the benefit of the District. Disclosures for the debt service accounts are included in the notes to the financial statements of the State of Florida's Comprehensive Annual Financial Report. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account.

The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost. The District has local investments in the Florida Public Assets for Liquidity Management (FL PALM) portfolio, an external investment pool in which shares are owned in the fund, rather than in the underlying investments. FL PALM investments are reported at net asset value (NAV). The District also has investments in the Florida Fixed Income Trust (FL FIT) external investment pool in which shares are owned in the fund, rather than in the underlying investments. FL FIT investments are reported NAV. Other investments made locally consist of Money Market Mutual Funds, United States Treasury Securities, Obligations of United States Government Instrumentalities and Agencies, State and Local Debt, and Commercial Paper. These investments are reported at fair value.

Fair Value Measurement of Investments – The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Types and amounts of investments held at fiscal year-end are described in a subsequent note.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (continued)

3. Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in District operations. The supply inventory is stated using a weighted-average cost. The print shop and maintenance inventories are stated at last invoice price that approximates the first-in, first-out basis. The transportation and food service inventories are stated at cost using the first-in, first-out basis. United States Department of Agriculture donated foods are stated at fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Service, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods. Those items are recorded as prepaid items in the government-wide, governmental funds, and proprietary fund statements, and their cost is recorded as an expenditure/expense when consumed rather than when purchased.

4. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those having an estimated useful life of more than one year and costing more than \$1,000 for furniture, fixtures, and equipment; motor vehicles; audio-visual materials; and computer software; and \$50,000 for improvements other than buildings; buildings and fixed equipment; and construction in progress. Such assets are recorded at historical cost or estimated historical cost. Donated assets are recorded at acquisition value at the date of donation. All land purchases are included in capital assets regardless of cost. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are not capitalized. Gains or losses on disposal of capital assets are included as income in the period of disposal. Land and construction in progress are not depreciated. Capital assets are depreciated or amortized using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Fixed Equipment	10 - 40 years
Improvements Other than Buildings	15 years
Furniture, Fixtures and Equipment	6 years
Motor Vehicles	10 years
Audio-Visual Materials and Computer Software	5 years

Current year information relative to changes in capital assets is described in a subsequent note.

5. *Unearned Revenues*

Unearned revenues presented on both the governmental and proprietary fund financial statements represents advance collection of funds for services to be provided in future reporting periods. Unearned revenues in the nonmajor governmental funds consists primarily of prepayments for school lunches and local/non-federal grant advances. Unearned revenues in the internal service funds consists primarily of benefits and payroll deductions applicable to future fiscal year health insurance coverage in the self-insurance funds. Unearned revenues on the government-wide financial statements are the same as those reported on the governmental and proprietary statements.

6. *Pensions*

The District participates in both the Florida Retirement System (FRS) defined benefit pension plan and the Health Insurance Subsidy Program (HIS) defined benefit plan administered by Florida Division of Retirement (collectively, FRS/HIS). In the government-wide financial statements, net pension liability represents the District's proportionate share of the net pension liability of those cost-sharing pension plans. This proportionate amount represents a share of the present value of projected benefit payments to be provided through the cost-sharing pension plans to current active and inactive employees that is attributed to those employees' past periods of service (total pension liability), less the amount of the cost-sharing pension plans' fiduciary net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the FRS/HIS, and additions to/deductions from FRS/HIS's fiduciary net position have been determined on the same basis as they are reported by FRS/HIS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

7. *Compensated Absences*

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in a payment. A liability is reported for compensated absences in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable. For the calculation of sick leave termination liability, the District uses the termination payments method.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (continued)

8. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums and discounts are deferred and amortized using a straight-line method over the term of the related debt. Certificates of participation and bonds payable are reported net of applicable premiums and discounts.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until they become due. Governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Changes in long-term liabilities for the current year are reported in a subsequent note.

9. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense) until then. The District has three items that qualify for reporting in this category. The first is the net carrying amount of debt refunding reported in the government-wide statement of net position, which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred amount on pensions reported in the government-wide statement of net position. The third is the deferred amount on Other Postemployment Benefits (OPEB) reported in the government-wide statement of net position. The deferred outflows of resources related to pensions and OPEB are discussed in a subsequent note.

10. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense) until then. The District has three items that qualify for reporting in this category. The first is the net carrying amount of debt refunding reported in the government-wide statement of net position, which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred amount on pensions reported in the government-wide statement of net position. The third is the deferred amount on Other Postemployment Benefits (OPEB) reported in the government-wide statement of net position. The deferred outflows of resources related to pensions and OPEB are discussed in a subsequent note.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items that qualify for reporting in this category on the statement of net position. The first is deferred gains on refunding resulting from a debt refinancing whereby the net carrying amount of the debt instrument exceeds the reacquisition price of the refunding debt. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred amount on pensions which results from the difference in the expected and actual amounts related to experience, earnings, and contributions. The third is the deferred amount on OPEB which results from the difference in expected and actual amounts related to experience and earnings. The deferred inflows of resources related to pensions and OPEB are discussed in subsequent notes.

11. Net Position

The government-wide, proprietary fund, and fiduciary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted. Net investment in capital assets groups all capital assets into one component of net position; accumulated depreciation and the outstanding balances of debt that are attributed to the acquisition, construction, or improvement of these assets reduce the balance in this category. Restricted net position includes all net position with external restrictions imposed by creditors, grantors, or laws and regulations of other governments. Unrestricted net position is the residual amount of net position of the District that is not restricted for any particular purpose.

12. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as *restricted – net position* and *unrestricted – net position* in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

13. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance) upon recommendation of the Superintendent.

- Nonspendable – Nonspendable fund balance includes items that cannot be spent because they are not in spendable form, such as inventory. All other categories of fund balance, other than nonspendable, are collectively known as spendable fund balance.
- Restricted – Restricted fund balances encompass the portion of net fund resources subject to externally enforceable legal restrictions. This includes externally imposed restrictions by creditors (such as through debt covenants), grantors, contributors, laws, or regulations of other governments, as well as restrictions imposed by law through constitutional provisions or enabling legislation.
- Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District reported no committed fund balances at June 30, 2021.
- Assigned – Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The District and the Board also have not established a policy to assign fund balance. However, certain actions taken by the District, as subsequently described, assign fund balance in accordance with GASB Statement No. 54. The Board has, by approval of the annual financial report, authorized the assignment of fund balance. Included in assigned fund balance in the General Fund is an amount for

purchase order obligations outstanding that have not been already included as restricted fund balance. In addition, an amount is included in assigned fund balance for certain program budgets carried over from year-to-year outside of those required by State Statute.

- Unassigned – The residual fund balance remaining is reported as unassigned fund balance and is the excess of nonspendable, restricted, committed, and assigned fund balance. The General Fund is the only fund that reports a positive unassigned fund balance amount.

Minimum Fund Balance Policy – The Board has adopted Policy 6210 to provide for a 4 percent minimum unassigned fund balance for the General Fund, if feasible, based on the recurring expenditure budget. For the 2020-21 fiscal year, the Board adopted an unassigned fund balance budget of \$41,017,091.

15. Fund Balance Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

H. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

H. Revenues and Expenditures/Expenses

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the FDOE under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting during specified time periods following the date of the original reporting. Such amendments may impact funding allocations for subsequent fiscal years. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the fiscal year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following fiscal year to be expended for the same educational programs. The FDOE generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

3. District Property Taxes

The Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service. Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Seminole County Property Appraiser, and property taxes are collected by the Seminole County Tax Collector.

The Board adopted the 2020 tax levy on September 8, 2020. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

3. District Property Taxes (continued)

The Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service. Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Seminole County Property Appraiser, and property taxes are collected by the Seminole County Tax Collector.

The Board adopted the 2020 tax levy on September 8, 2020. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1 and are delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Seminole County Tax Collector at fiscal year-end but not yet remitted to the District.

Millage rates and taxes levied for the current year are presented in a subsequent note.

5. Local Government Infrastructure Surtax (Local Sales Tax)

On May 20, 2014, the voters of Seminole County approved a one-cent infrastructure surtax authorized under Section 212.055(2), Florida Statutes on taxable sales in the County. Through an interlocal agreement, the District receives one-quarter of the surtax revenues over a ten-year period that started on January 1, 2015, and will go through December 31, 2024.

6. Educational Impact Fees

Seminole County imposes an educational impact fee based on an ordinance adopted by the County Commission in 1992. This ordinance was most recently amended in January 2018, when Ordinance 2018-1 established, in part, revised impact fee rates. The educational impact fee is collected by the County and each municipality within the County based on an interlocal agreement. The fees are to be used solely for the purpose of providing capital improvements to the public educational system necessitated by new residential development and are not to be used for any expenditure that would be classified as a maintenance or repair. The authorized uses include, but are not limited to, land acquisition; facility design and construction costs; furniture and equipment; and payment of principal, interest, and related costs of indebtedness necessitated by new residential development.

7. Federal Revenues Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred. The FDOE may require adjustments to subsequent fiscal period expenditures and related revenues based upon an audit of the district's compliance with applicable Federal awards requirements. Normally, such adjustments are treated as reductions of expenditures and related revenues in the fiscal year when the adjustments are made.

8. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for sales and services and premiums charged to the District and employees under various insurance programs. The principal operating expenses for the internal service funds include salary and benefits, cost of sales and services, claims, and premiums for excess coverage. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

II. Accounting Changes

GASB Statement No. 84. The District implemented GASB Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying and reporting fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. Adopting GASB 84 changed the way the District accounts for school internal and employee benefit funds.

The District does not consider the school internal funds to meet the criteria for reporting as fiduciary activities due to the District's administrative involvement with those funds. Consequently, these funds are now reported in a special revenue fund as required by the Florida Department of Education. The impact of this accounting change increased the beginning net position of the other governmental funds by \$7,123,584 (restatement of prior years was not practicable).

In addition, the District's employee benefit activities related to Flexible Spending Accounts and Health Reimbursement Accounts do not meet the criteria for fiduciary fund reporting because the District has either administrative involvement or direct financial involvement with those plans. These activities are now accounted for in the Health Self-Insurance internal service fund. The impact of this accounting change decreased the beginning net position of the proprietary funds by \$34,984 (restatement of prior years was not practicable).

The District's other voluntary participation employee benefit programs, which include employee-paid dental, vision, life, disability, and other supplemental healthcare plans, are fiduciary activities under GASB 84 and are accounted for as custodial funds in the District's fiduciary statement of net position and fiduciary statement of changes in net position. The impact of this accounting change increased the beginning net position of the fiduciary funds by \$5,247 (restatement of prior years was not practicable).

III. Adjustments to Beginning Net Position

The District reported a change to beginning net position to reflect (1) an increase in the beginning balance of other governmental funds of \$7,123,584 related to adopting GASB 84 as described above, (2) an increase in beginning net position of the fiduciary funds of \$5,247 related to adopting GASB 84 as described above, (3) a decrease in beginning net position of the proprietary funds of \$34,984 related to adopting GASB 84 as described above, and (4) an increase in the beginning net position of \$6,487 in the Government-wide statements to incorporate a prior period adjustment made by the Florida Division of Retirement (FRS) that increase the June 30, 2019, Net Pension Liability.

A. Cash Deposits with Financial Institutions

Cash balances from all funds are combined and invested to the extent available. Earnings are allocated monthly to each fund based on average monthly balances.

Custodial Credit Risk - Cash Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to the District. It is the policy of the District that all cash deposits are to be held in institutions which are qualified as public depositories under Florida law. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Assets are classified into one of three levels. Level 1 is the most reliable and is based on quoted price for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtaining quoted prices for identical or similar assets, in markets that are not active. Level 3 is the least reliable and uses significant unobservable inputs that uses the best information available under the circumstances, which includes the District's own data in measuring unobservable inputs. The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent). The District has the following fair value measurements as of June 30, 2021:

Primary Government

Investments by fair value level	Amount	Fair Value Measurements Using

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Section 218.415(17), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. District policy limits investment maturities to a maximum of five years, and, to the extent possible, limits the investment of current operating funds to two years. All investments, throughout the fiscal year and at year-end, were authorized in District policy.

Florida PRIME and Dreyfus Money Market Fund use a weighted-average-days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity (or reset date in the case of floating rate instruments). WAM measures the sensitivity of the portfolio to interest rate changes.

For Florida PRIME, Section 218.409(8)(a), Florida Statutes, states that "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the executive director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the board [State Board of Administration] can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the trustees, the Joint Legislative Auditing Committee, and the Investment Advisory Council. The trustees shall convene an emergency meeting as soon as practicable from the time the executive director has instituted such measures and review the necessity of those measures. If the trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the executive director until the trustees are able to meet to review the necessity for the moratorium. If the trustees agree with such measures, the trustees shall vote to continue the measures for up to an additional 15 days. The trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the trustees exceed 15 days." As of June 30, 2021, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the SBA's Florida PRIME, or any other intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest bearing time deposits in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. District policy limits the investments allowed to be purchased to the following:

- SBA Florida PRIME and other Intergovernmental Investment Pools
- United States Government Securities, Obligations of United States Government Agencies or Instrumentalities, and Repurchase Agreements collateralized by obligations of the United States Government, its Agencies, or Instrumentalities
- Time Deposit or Savings Accounts

The District's investments in the SBA debt service accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and (1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; (2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or (3) if physically issued to the holder but not registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a secured vault.

B. Investments (continued)

District policy requires that all investments, other than investments in money market funds, Florida PALM, FL-FIT, and the SBA, be held in the District's name in custodial and/or trustee accounts by an independent custodial bank. The District maintains compliance with this policy and all applicable investments are held by an independent custodial bank.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. Composition of investment portfolio, calculated based on the fair value, is limited by District policy. District policy places the following limits on concentration of investments by type and issuer at the time an investment is made:

Allowed Securities With Credit Exposure as a Percentage of Total Investments

E. Retirement Plans

1. FRS – General Information

The FRS was created by Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan to assist retired members of any State-administered retirement system in paying the costs of health insurance.

1. FRS – General Information (continued)

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The District's total pension liability is 409,745,367. FRS and HIS pension expense totaled \$66,450,629 for the fiscal year ended June 30, 2021. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to the FRS and HIS pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<u> </u>	<u> </u>
Differences between expected and actual experience	\$ 15,990,981	\$ 90,554
Changes in assumptions	65,548,851	6,825,407
Net difference between projected and actual earnings on pension plan investments	17,501,212	-

2. FRS – Defined Benefit Pension Plans

The FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing, multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- Regular – Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officers – Members who hold specified elective offices in local government.
- Senior Management Service – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members who enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed based on age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in line of duty or regular disability and survivors' benefits.

E. Retirement Plans (continued)

2. FRS – Defined Benefit Pension Plans (continued)

The following chart shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>Percent Value</u>
Regular Members Initially Enrolled Before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Members Initially Enrolled On or After July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
Elected County Officers	3.00
Senior Management Service	2.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost of living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The State of Florida establishes contribution rates for participating employers and employees. The District’s employer and employee contribution rates are established in Section 121.71, Florida Statutes. Employer contribution rates under the uniform rate structure (a blending of both the FRS Pension Plan and Investment Plan rates) are recommended by the Plan actuary but set by the Legislature. Statutes require any unfunded actuarial liability be amortized over 30 plan years. Contribution rates during the 2020-21 fiscal year were as follows:

Class	Percent of Gross Salary	
	Employee	Employer (A)
Florida Retirement System, Regular	3.00	10.00
Florida Retirement System, Elected County Officers	3.00	49.18
Florida Retirement System, Senior Management Service	3.00	27.29
Deferred Retirement Option Program - Applicable to Members from All of the Above Classes	0.00	16.98
Florida Retirement System, Reemployed Retiree	(B)	(B)

(A) Employer rates include 1.66 percent for the retiree HIS program. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(B) Contribution rates are dependent upon the retirement class in which the employee was reemployed.

The District’s contributions to the FRS Pension Plan totaled \$27,758,479 for the fiscal year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2021, the District reported a liability of \$292,361,622 for its proportionate share of the Plan’s net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The District’s proportionate share of the net pension liability was based on the District’s 2019-20 fiscal year contributions relative to the total 2019-20 fiscal year contributions of all participating members. At June 30, 2020, the District’s proportionate share was 0.674553949 percent, which was a decrease of 0.015285779 from its proportionate share measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized the Plan pension expense of \$57,903,970. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 11,189,274	\$ -
Changes in assumptions	52,926,756	-

Actuarial Assumptions. The total pension liability in the July 1, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 percent
Salary Increases	3.25 percent, average, including inflation
Investment Rate of Return (Discount Rate)	6.80 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP 2018.

The actuarial assumptions used in the July 1, 2020, valuation were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

Long-term Expected Rate of Return. The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below (as outlined in the Plan's investment policy). Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Annual Arithmetic Return</u>	<u>Compound Annual (Geometric) Return</u>	<u>Standard Deviation</u>

Discount Rate. The discount rate used to measure the total pension liability was 6.8 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long term expected rate of return. The discount rate used in the 2020 valuation was updated from 6.9 percent to 6.8 percent.

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.8 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.8 percent) or 1 percentage point higher (7.8 percent) than the current rate:

The HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. Persons are eligible for HIS payments who are retired under a state-administered retirement system or a beneficiary who is a spouse or financial dependent entitled to receive benefits under a state-administered retirement system, except those individuals who are pension recipients under Sections 121.40, 237.08(18)(a) and 250.22, Florida Statutes, or are recipients of health insurance coverage under Section 110.1232, Florida Statutes or any other special pension or relief act are not eligible for such pension payments. A person is deemed retired from a state-administered retirement system when they terminate employment with all employers participating in the FRS and:

- For a member of the FRS investment plan, the participant meets the age or service requirements to qualify for normal retirement per Section 121.021(29), Florida Statutes, and meets the definition of retiree in Section 121.4501(2), Florida Statutes.
- For a member of the FRS defined benefit pension plan, or any employee who maintains creditable service under the pension plan and the investment plan, the member begins drawing retirement benefits from the pension plan.

Any person retiring on or after July 1, 2001, as a member of the FRS, including a member of the investment plan, must satisfy the vesting requirements for his or her membership class under the pension plan as administered under Chapter 121, Florida Statutes. Any person retiring due to disability must qualify for a regular or in-line-of-duty disability benefit per provisions under Chapter 112, Florida Statutes.

Benefits Provided. The benefit of the HIS Plan is a monthly payment to assist retirees of state-administered retirement systems in paying their health insurance costs and is administered by the Department of Management Services, Division of Retirement. HIS benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

For the fiscal year ended June 30, 2021, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State administered retirement system must provide proof of health insurance coverage, which may include Federal Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2021, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 6 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized.

The District's contributions to the HIS Pension Plan totaled \$5,632,522 for the fiscal year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2021, the District reported a net pension liability of \$117,383,745 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020, and update procedures were used to determine the net pension liability as of June 30, 2020. The District's proportionate share of the net pension liability was based on the District's 2019-20 fiscal year contributions relative to the total 2019-20 fiscal year contributions of all participating members. At June 30, 2020, the District's proportionate share was 0.961386657 percent, which was a decrease of 0.015873045 from its proportionate share measured as of June 30, 2019.

For the fiscal year ended June 30, 2021, the District recognized the HIS Plan pension expense of \$8,546,658. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 4,801,707	\$ 90,554
Changes in assumptions	12,622,095	6,825,407

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$5,632,522, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	Amount Recognized
2022	\$ 1,587,467
2023	1,177,549
2024	321,768
2025	747,172
2026	1,017,409
Thereafter	884,604
Total	<u>\$ 5,735,969</u>

Actuarial Assumptions. The total pension liability for the HIS Pension Plan was determined by an actuarial valuation as of the valuation date, calculated using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	2.21 percent

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP 2018. This is a change from the prior year mortality assumption which was based on the Generational RP-2000 with Projection Scale BB tables.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 2.21 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20 Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 3.5 percent to 2.21 percent.

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 2.21 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.21 percent) or 1 percentage point higher (3.21 percent) than the current rate:

	1% Decrease (1.21%)	Current Discount Rate (2.21%)	1% Increase (3.21%)

2. FRS - Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2019-20 fiscal year were as follows:

Class	Percent of Gross Salary
Florida Retirement System, Regular	6.30
Florida Retirement System, Elected County Officers	11.34
Florida Retirement System, Senior Management Service	7.67

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2021, the information on forfeiture amounts was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

3. FRS - Defined Contribution Pension Plan (continued)

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$2,869,783 for the fiscal year ended June 30, 2021.

Payables to the Plan. At June 30, 2021, the District reported a payable of \$753,074 for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2021.

F. Other Postemployment Benefits (OPEB) Obligations

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the District's retirement eligibility provisions. Pursuant to Section 112.0801, Florida Statutes, employees who retire from the District are eligible to participate in the District's health and hospitalization plan for medical and prescription drug, and life coverage. For retiree life insurance, retirees pay 100% of the life insurance premium, and their premium rates are not subsidized by the District. Retirees and their eligible dependents are offered the same health and hospitalization insurance coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The District implicitly subsidizes the premium rates paid by pre-Medicare retirees by allowing them to participate in the OPEB Plan at reduced or blended group premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because retiree healthcare costs are generally greater than active employee healthcare costs. Plan contribution requirements of the District and OPEB Plan members are established and may be amended through recommendations of the Insurance Committee and action from the Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefit Terms. The OPEB Plan provides healthcare and life insurance benefits for retirees and their dependents. In addition to the implicit subsidy described above, the benefit terms provide for reduced health insurance premiums for Medicare retirees to offset their Medicare Part B premium. Regarding healthcare insurance benefits, retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. For retiree life insurance, premium rates are not subsidized by the District.

Employees Covered. As of June 30 2021, there were 6,269 active employees and 197 retirees enrolled for healthcare benefits. The District contributed \$1,100,851 toward annual OPEB costs for claims and retention costs, net of retiree contributions totaling \$ 3,323,446.

Total OPEB Liability. The District's total OPEB liability of \$12,740,202 was measured as of June 30, 2020, and was determined by an actuarial valuation as of June 30, 2019. Update procedures were used to determine the total OPEB liability as of June 30 2021.

Actuarial Assumptions and Other Inputs. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Reporting Date	June 30, 2021
Actuarial Cost Method	Entry Age Normal (level percent of salary)
Medical Care Trend	7.50% decreasing by 0.50% per year down to 6.50%, then by 0.10% per year down to 5.0%, and level thereafter
Discount Rate*	2.25% (based upon all years of projected payments discounted at a municipal bond rate of 2.25%)
Municipal Bond Rate Source	Bond Buyer 20-Bond GO Index
Actuarial Assumptions	Based on an experience study conducted in 2019 using Florida Retirement System (FRS) experience from 2013-18.
Mortality Assumptions	PUB-2010 base tables, generational mortality using gender-specific MP-2018 mortality improvement projection scale

* Implicit in this rate is an assumed rate of inflation of 2.00%

The discount rate was based on the daily rate of Bond Buyer GO-20 Municipal Bond Rate closest to but not later than the measurement date.

Demographic assumptions employed in the actuarial valuation were the same as those employed in the July 1, 2020, actuarial valuation of the FRS Defined Benefit Pension Plan. These demographic assumptions were developed by FRS from an actuarial experience study, and therefore are appropriate for use in the OPEB Plan actuarial valuation. These include assumed rates of future termination, mortality, disability, and retirement. In addition, salary increase assumptions (for development of the pattern of the normal cost increases) were the same as those used in the July 1, 2020, actuarial valuation of the FRS Defined Benefit Pension Plan. Assumptions used in valuation of benefits for participants of the FRS Investment Plan are the same as for similarly situated participants of the FRS Defined Benefit Pension Plan.

Changes to the Total OPEB Liability. Below are the details regarding the total OPEB liability for the measurement period from June 30, 2020, to June 30, 2021.

	Total OPEB Liability
Balance at 06/30/2020	\$ 18,813,350
Changes for the Fiscal Year:	
Service cost	1,518,106
Interest cost	665,769
Changes of benefit terms	-

Changes of assumptions or other inputs	1,843,828
Benefit payments	(1,100,851)
Net change in total OPEB liability	2,926,852
Balance at 06/30/2021	\$ 21,740,202

The changes of assumptions or other inputs was based on the following:

- The discount rate decreased from 3.50 percent to 2.25 percent.
- The medical claims costs and premiums were updated based on actual claims experience and premium information provided for the valuation.
- The Medical Care Trend rate decreased from 8.00 percent to 7.50 percent.

H. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District established the Self-Insurance - Casualty, Liability, and Workers' Compensation Internal Service Fund (Risk Management Fund) to account for and finance its uninsured risks of loss related to workers' compensation, automobile liability, and general liability claims. The District retains \$500,000 per occurrence for workers' compensation liability, \$250,000 per occurrence for errors and omissions exposure, and \$300,000 per occurrence for automobile and general liability exposures. The District retains \$100,000 per occurrence for property damage other than named storms (hurricanes, etc.); for named storms the District's retention is 2 percent of the total insured value per building, with a maximum deductible of \$10,000,000.

The District entered into agreements with various insurance companies to provide specific excess coverage of claims amounts above the stated amount on an individual claim basis and aggregate excess coverage when total claims minus specific excess coverage exceeds the loss fund established annually by the District. The District contracted with a third-party claims administrator to administer these self-insurance programs, including the processing, investigating, and payment of claims. Settled claims resulting from risks described in this section have not exceeded commercial insurance coverage for the past three fiscal years.

H. Risk Management (continued)

The District established a Self-Insurance - Health Internal Service Fund (Health Self-Insurance Fund) to account for and finance the Health Self-Insurance Program. The District provides coverage for health and hospitalization and for prescription drugs. The self-insurance program is administered by an outside provider. Both health and hospitalization claims and prescription drug claims are limited to a specified amount per person and/or per plan year, due to stop-loss insurance coverages being purchased from a commercial insurance provider. The first stop-loss insurance coverage is individual stop-loss coverage that reimburses claims in excess of \$450,000 per person per plan year, including prescription drug claims.

The District reports the self-insurance programs in the Internal Service Funds. Amounts are transferred from the General Fund to the Internal Service Funds to provide sufficient resources to cover claims incurred, pay for the purchase of excess and/or stop-loss insurance, pay for risk management personnel expenses and pay the insurance service agent's administrative fee.

A liability in the amount of \$7,493,170 was actuarially determined to cover outstanding claims and estimated incurred, but not reported, insurance claims payable for the Self-Insurance - Casualty, Liability, and Workers' Compensation Fund, at June 30, 2021, and is net of \$0 of excess insurance recoverable on unpaid claims. A liability in the amount of \$4,082,153 was estimated pending final actuarial valuation to cover outstanding claims and estimated incurred, but not reported, insurance claims payable at June 30, 2021, for the Self-Insurance - Health Fund.

The estimates of the insurance claims payable also include allocated loss adjustment expenses (incremental claims adjustment expenses). Allocated loss adjustment expense provides for all expenses associated with the handling and settling of claims that can be directly attributable to a particular claim. Such expenses typically include legal fees, investigatory and expert witness fees, etc. No other costs associated with the District's insurance program have been considered in determining the insurance claims payable.

The District entered into a financing arrangement on April 1, 1994, characterized as a lease-purchase agreement, with the Seminole School Board Leasing Corporation, Inc. (Leasing Corporation), whereby the District secured financing of various educational facilities and equipment in the total amount of \$309,270,000. This financing was accomplished through the issuance of Certificates of Participation, Series 1994A for \$80,230,000; Series 1994B for \$33,165,000; Series 1998A for \$76,870,000; Series 2003B for \$36,015,000; Series 2004A for \$35,020,000; Series 2006A for \$27,295,000; Series 2009A for \$20,675,000; Series 2016C for \$50,555,000; and Series 2019A for \$15,000,000 to be repaid from the proceeds of rents paid by the District.

As a condition of the financing arrangement, the District has given ground leases on District property to the Leasing Corporation, with rental fees of \$1 per year. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to

provide for the rent payments through to term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the certificates for a period of time as specified by the arrangements.

On April 15, 2021, the District issued Certificates of Participation, Series 2021A, in the par amount of \$ 16,680,000 with an interest rate of 1.59 percent. The proceeds were used to advance refund a portion of the Certificates of Participation 2012B outstanding par value of \$15,895,000 and an average interest rate of 3.43 percent. The net proceeds of \$16,847,153 (includes proceeds of \$16,680,000 plus an additional amount of \$167,153 to cover interest and net of \$ 92,198 in underwriting, legal, and other issuance costs) were used to purchase State and Local Government Series (SLGS) Securities, which were placed into an irrevocable trust with an escrow agent to provide for all future debt service payments on the Series 2012B Certificates of Participation. As a result, the refunded portion of the Series 2012B Certificates of Participation are considered to be defeased and the liability for those bonds has been removed from the government-wide statement of net assets.

The advance refunding of the Certificates of Participation Series 2012B resulted in a difference between the reacquisition price and the net carrying amount of the Series 2012B of (\$493,827). This difference, reported in the accompanying financial statements as a reduction to bonds payable, is being charged to operations through fiscal year 2029 using the effective interest method. The District completed the advance refunding to reduce its total debt services payments over the next 8 years by \$748,000 and to obtain an economic gain of \$698,000.

On April 15, 2021, the District issued Certificates of Participation, Series 2021B, in the par amount of \$12,810,000 with an interest rate of 1.79 percent. The proceeds were used to advance refund a portion of the Certificates of Participation Series 2014A outstanding par value of \$11,135,000 and an average interest rate of 4.77 percent. The net proceeds of \$12,868,732 (includes proceeds of \$12,810,000 plus an additional amount of \$152,028 to cover interest and net of \$92,296 in underwriting, legal and other issuance costs) were used to purchase State and Local Government Series (SLGS) Securities, which were placed into an irrevocable trust with an escrow agent to provide for all future debt service payments on the Series 2014A Certificates of Participation. As a result, the refunded portion of the Series 2014A Certificates of Participation are considered to be defeased and the liability for those bonds has been removed from the government-wide statement of net assets.

The advance refunding of the Certificates of Participation Series 2014A resulted in a difference between the reacquisition price and the net carrying amount of the Series 2012B of \$980,551. This difference, reported in the accompanying financial statements as an addition to bonds payable, is being charged to operations through fiscal year 2031 using the effective interest method. The District completed the advance refunding to reduce its total debt services payments over the next 8 years by \$644,000 and to obtain an economic gain of \$601,000.

2. Bonds Payable (continued)

The various issues of State School Bonds were issued to finance capital outlay projects of the District or refund previously issued State School Bonds. These bonds are issued by the State Board of Education (SBE) on behalf of the District. The bonds mature serially and are secured by a pledge of the District's portion of the state-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service fund resources, and compliance with reserve requirements are administered by the SBE and the SBA. Annual requirements to amortize all bonded debt outstanding as of June 30, 2021, are as follows:

Fiscal Year Ending June 30,	State School Bonds Payable		
	Principal	Interest	Total
2022	\$ 687,000	\$ 189,180	\$ 876,180

Total bonds payable	<u>\$ 4,178,000</u>	<u>\$ 710,390</u>	<u>\$ 4,888,390</u>

On January 12, 2020, the SBA issued SBE Capital Outlay Bonds Series 2020A – Refunding for \$50,530,000. The District's portion of the bonds, \$147,000 was used to refund \$155,000 of outstanding SBE Capital Outlay Bonds, Series 2010A. The proceeds of the bond issue were deposited into an irrevocable trust fund with the SBA to redeem the refunded bonds on the redemption date. Neither the assets with the SBA nor the liability for the refunded debt are included on the District's statement of net position. The District's portion of the defeased principal amount of SBE Capital Outlay Bonds, Series 2010A outstanding at June 30, 2021, is \$80,000.

V. Summary Disclosure of Significant Contingencies

A. Litigation

The School Board is a defendant in various lawsuits at fiscal year-end. Although the outcome of these lawsuits cannot presently be determined, in the opinion of the District's legal counsel, the resolution of these matters will not have a material adverse effect on the financial position of the District.

B. Other Loss Contingencies

The District receives financial assistance from Federal and State agencies in the form of grants and appropriations. The disbursement of funds received under these programs generally requires compliance with specified terms and conditions and is subject to final determination by the applicable Federal and State agencies. Any disallowed claims should become a liability of the General Fund or other applicable funds. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although District management anticipates such amounts, if any, will be immaterial.

Notes to the Required Supplementary Information
For the Year Ended June 30, 2021

1. Schedule of Changes in the District's Total Other Postemployment Benefits Plan Liability and Related Ratios

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits.

The June 30, 2020, OPEB liability of \$21,740,202 was more than the June 30, 2019, liability of \$18,813,350 by \$2,926,852. Changes in actuarial assumptions are described below:

Changes in assumptions. Changes of assumptions and other inputs reflect the effects of changes in the discount rate each measurement period. The following are the discount rates used in each measurement period:

2016	2.00%
2017	2.25%
2018	3.87%
2019	3.50%
2020	2.25%

2. Schedule of Net Pension Liability and Schedule of Contributions – Florida Retirement System Pension Plan

Changes of Assumptions. In 2020, the long-term expected rate of return was decreased from 6.90 percent to 6.80 percent.

3. Schedule of Net Pension Liability and Schedule of Contributions – Health Insurance Subsidy Pension Plan

Changes in assumptions. In 2020, the municipal bond rate used to determine total pension liability was decreased from 3.5 percent to 2.21 percent, and the mortality assumption was updated.

**OTHER SUPPLEMENTARY INFORMATION –
COMBINING AND INDIVIDUAL FUND
STATEMENTS AND SCHEDULES**

Other Supplementary Schedules General Fund

The General Fund budgetary comparison statement presented within the basic financial statements was presented at a summary level that is higher than which the District has budgetary control. Therefore, a more detailed budgetary comparison schedule is provided as part of the other supplementary schedules to demonstrate the District's compliance with its legal level of budgetary control (i.e., the object level within each function) for the General Fund.

The General Fund is the primary operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in the General Fund. The General Fund is reported as a major governmental fund.

Other Supplementary Schedules Governmental Funds other than General Fund

Combining Statements

Included in the other supplementary schedules are combining statements for nonmajor governmental funds. These statements provide information on each individual nonmajor governmental fund that aggregates to the total presented as nonmajor governmental funds on the basic financial statements.

Individual Budgetary Comparison Schedules

Also included in the other supplementary schedules are budgetary comparison schedules for all governmental funds.

For nonmajor special revenue funds, all debt service funds, and all capital projects funds, budgetary comparison statements were not presented as part of the basic financial statements. Budgetary comparison schedules are presented as part of the other supplementary schedule for each of these funds to demonstrate the District's compliance with its budget in each fund.

Nonmajor Governmental Funds

Special Revenue Funds

The Special Revenue Funds account for certain revenues derived from the State of Florida, the Federal Government and other local and private sources that are required to finance designated activities.

Food Service Fund – To account for and report on activities of the food service program in serving breakfast and lunch at the schools.

Miscellaneous Special Fund – To account for and report on school internal funds, which include the funding of activities related to athletics, music, clubs, and other school-specific extracurricular programs.

Debt Service Funds

The Debt Service Funds are used to account for the payment of interest and principal of the current portion on long-term debt.

State Board of Education (SBE) Bond Fund – To account for and report on payment of principal, interest, and related costs on the state school bonds issued by the State Board of Education on behalf of the District. These bonds are payable from the District's portion of the state-assessed motor vehicle license tax.

Capital Projects Funds

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings or additions to existing buildings, or for major renovation projects.

Capital Outlay & Debt Service Fund – To account for and report on the dollars received through the State's Capital Outlay & Debt Service (CO&DS) program, used for construction and maintenance of schools.

Public Education Capital Outlay Fund – To account for and report on the dollars received through the State's Public Education Capital Outlay program, used for construction and maintenance of schools.

Internal Service Funds

Internal Service Funds are nonmajor proprietary funds and are reported as governmental activities. They are used to account for the financing of goods or services provided by one department to other departments within the school district on a cost-reimbursement basis. The following funds are included in the Internal Service Funds:

Self-Insurance – Casualty, Liability, etc. – To account for the financial activities of the District's self-insured property, casualty, liability, and workers' compensation program.

Self-Insurance – Health – To account for the financial activities of the District's self-insured employee prescription, health and hospitalization insurance program.

Print Shop – To account for the financial activities of the District's print center operations.

Internal Leasing Program – To account for the District's centralized program to purchase vehicles for use by various departments.

Nonmajor Discretely Presented Component Units

The component units columns in the basic financial statements include the financial data of the District's nonmajor discretely presented component units.

Choices in Learning, Inc., Galileo School for Gifted Learning, Galileo School for Gifted Learning – Skyway, UCP Seminole Charter School, and Seminole Science Charter School (Charter Schools) are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not-For-Profit Corporation Act, and Section 1002.33, Florida Statutes. The Charter Schools operate under a charter approved by their sponsor, the District School Board of Seminole County. In accordance with a ruling by and requirement of the Florida Department of Education, the Charter Schools are included as component units of the District. According to the Florida Department of Education, the Charter Schools are fiscally dependent on the District for their tax levy and the majority of their budget and create a financial burden on the District because the Charter Schools' full-time equivalent (FTE) student enrollment is the basis for the District to provide funding to the Charter Schools.

The Foundation for Seminole County Public Schools, Inc. (Foundation) is a not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to raise funds; receive, hold, invest, and administer property; and to make expenditures for the benefit of the District. Section 1001.453, Florida Statutes, requires the Foundation to be authorized and approved by the District. Because of the nature and significance of its relationship with the District, the Foundation is considered a component unit. The Foundation has its own staff and does not provide services entirely or nearly entirely to the District and, therefore, is discretely presented, rather than blended.

Notes:

- (1) During the fiscal year ended June 30, 2013, implementation of GASB Statement Nos. 63 and 65 resulted in adjustments to beginning net position. Previous periods were not adjusted for these changes.
- (2) In fiscal years ending prior to June 30, 2014, class size reduction funding was presented as an operating contribution to instruction. Pursuant to State Statute, this amount is not restricted to this function and has been restated to be reported as other state sources general revenues for all periods presented.
- (3) During the fiscal year ended June 30, 2014, net position for governmental activities was restated due to changes in accounting principles and prior period adjustments. Previous periods were not adjusted for these changes.
- (4) During the fiscal year ended June 30, 2015, implementation of GASB Statement No. 68 resulted in adjustments to beginning net position. Previous periods were not adjusted for these changes.
- (5) In fiscal years ending prior to June 30, 2015, federal grant related revenues were presented as a general revenue to the District. The District previously determined this was the correct manner to report federal grants because federal revenues were not restricted to a certain function. GASB Implementation Guide Question 7.34.3 clarified that federal grant revenues are restricted to specific programs and should be reported as operating grants program revenues. For the fiscal year ending June 30, 2015, all federal revenues have been reclassified to be operating grant program revenues to the functions to which they relate. All prior periods presented have been restated to report federal grant revenues as operating grant program revenues.
- (6) During the fiscal year ended June 30, 2018, implementation of GASB Statement No. 75 and an immaterial FRS actuarial error related to employer contributions subsequent to the measurement date resulted in adjustments to beginning net position. Previous periods were not adjusted for these changes.
- (7) During the fiscal year ended June 30, 2019, beginning net position was adjusted to reflect the FRS reported change in beginning net pension liability due to implementation of GASB Statement No. 75. Previous periods were not adjusted for these changes.

Notes:

- (1) Net of allowable discounts.
- (2) Property Taxes become due and payable on November 1 of each year. A four percent discount is allowed if taxes are paid in November, with the discounts declining by one percent each month thereafter. Accordingly, taxes collected will never be one hundred percent of the tax levy. Taxes become delinquent on April 1 of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1 of each year. Accordingly, majority of taxes are collected in the fiscal year levied, as current year tax certificates are included in current tax collections.
- (3) Variance in Total Collections from the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds is due to interest earnings on property taxes held by the county.

Note:

- (1) Overlapping debt is that of local governments and Seminole County which apply to property owners within the County. Not all overlapping debt applies to all county property owners. The municipality rates apply only to the property owners in each of the county's seven cities. This estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents of the county. This process recognizes that, when considering the county's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt, of each overlapping government. The municipalities listed above are 100% within the boundary of the Seminole County and the School District.

Sources:

- (1) Population was obtained from the United States Census Bureau, Population Division, for the 2018-19 and 2019-20 fiscal years and from the Bureau of Economic Analysis for 2008-09 through 2016-17. Population was estimated for the 2017-18 fiscal years based on the previous fiscal years Statewide growth rate between 2016 and 2017. Due to revision by the Bureau of Economic Analysis, Population, Personal Income and Per Capita Personal Income were restated for all prior fiscal years.
- (2) Unemployment Rates are the average monthly rate for the fiscal year and were obtained from the US Department of Labor, Bureau of Labor Statistics and Florida Research and Economic Information Database.
- (3) District records.

Note:

- (4) Calculated by dividing government-wide governmental activities expenses by student enrollment.

DISTRICT SCHOOL BOARD OF SEMINOLE COUNTY, FLORIDA
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2021

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the Federal award activity of the Seminole County District School Board under programs of the Federal government for the fiscal year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, or changes in net position.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following either the cost principles of Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. Indirect Cost Rate

The District has not elected to use the 10 percent de minimis cost rate allowed under the Uniform Guidance.

4. Noncash Assistance

(a) National School Lunch Program – Includes \$ 2,203,864 of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.

5. Hurricane Education Recovery Act

The District incurred \$13,684 in expenditures for the Hurricane Education Recovery Act grant in prior fiscal years.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Chairman and Members of
The District School Board
of Seminole County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District School Board of Seminole County, Florida (the “District”) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements and have issued our report thereon dated December 15, 2021. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component units, as described in our report on the District’s financial statements. This report does not include the results of the other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Pursuant to provisions of Chapter 10.800, *Rules of the Auditor General*, we reported certain matters to management of the District in a separate management letter and Independent Accountant's Report dated December 15, 2021.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR
EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE AND REPORT ON THE SCHEDULE OF EXPENDITURES OF
FEDERAL AWARDS IN ACCORDANCE WITH THE UNIFORM GUIDANCE**

Chairman and Members of
The District School Board
of Seminole County, Florida

Report on Compliance for Each Major Federal Program

We have audited the compliance of the District School Board of Seminole County, Florida (the “District”) with the types of compliance requirements described in the U.S. Office of Management and Budget (“OMB”) *Compliance Supplement* that could have a direct and material effect on each of the District’s major federal programs for the year ended June 30, 2021. The District’s major federal programs are identified in the summary of auditor’s results section of the accompanying Schedule of Findings and Questioned Costs.

Management’s Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of the District’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (“Uniform Guidance”). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District’s compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred in the first paragraph of this section. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the basic financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated December 15, 2021, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. Our report on the basic financial statements included disclosures regarding our reference to the reports of other auditors. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis, as required by the Uniform Guidance, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance (Cont.)

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

INDEPENDENT ACCOUNTANT'S REPORT

Chairman and Members of
The District School Board
of Seminole County, Florida

We have examined the District School Board of Seminole County, Florida's (the "District") compliance with the requirements of Section 218.415, Florida Statutes, during the fiscal year ended June 30, 2021. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied with those requirements, in all material respects. An examination involves performing procedures to obtain evidence about the District's compliance with those requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended June 30, 2021.

INDEPENDENT AUDITOR'S MANAGEMENT LETTER

Chairman and Members of
The District School Board
of Seminole County, Florida

Report on Financial Statements

We have audited the financial statements of the District School Board of Seminole County, Florida (the "District") as of and for the year ended June 30, 2021, and have issued our report thereon dated December 15, 2021.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"); and Chapter 10.800, *Rules of the Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control over Compliance and Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance, Schedule of Findings and Questioned Costs, and our Independent Accountant's Report in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.800, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated December 15, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.804(1)(f)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. There were no recommendations made in the preceding annual financial report.

Financial Condition and Management

Section 10.804(1)(f)2., *Rules of the Auditor General*, requires us to communicate whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.804(1)(f)5a. and 10.805(7), *Rules of the Auditor General*, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based, in part, on representations made by management and the review of financial information provided by same.

Section 10.804(1)(f)3., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Transparency

Section 10.804(1)(f)6., *Rules of the Auditor General*, requires the that we communicate the results of our determination as to whether the District maintains on its website the information specified in Section 1011.035, Florida Statutes. In connection with our audit, we determined that the District maintained on its website the information specified in Section 1011.035, Florida Statutes.

Additional Matters

Section 10.804(1)(f)4., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or is likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the District School Board members, and applicable management and is not intended to be, and should not be, used by anyone other than these specified parties.
